

REPORT ON ONE-DAY WORKSHOP ON “A DEEP DIVE INTO OPERATING SYSTEMS AND LINUX”

By: Mr.Mohammed Nouman

Hosted By :- ICSB CLUB

Department:- CSE (IoT & cyber security including Blockchain)

On August 31st, 2024, the Department of Computer Science Engineering (IoT, Cyber Security, and Blockchain Technology) organized a one-day workshop titled “A Deep Dive into Operating Systems and Linux.” The workshop was conducted from 9:00 AM to 4:30 PM and aimed to provide students with a deeper understanding of operating systems, focusing particularly on Linux

Workshop Overview:

The event was led by Mohammed Nouman, a Software Engineer at Uncourt Inc., who shared his expertise and industry experience with the students. The workshop was split into two sessions.

Morning Session:

This session, which ran from 9:00 AM to 12:45 PM, focused on the theoretical concepts behind operating systems. Mohammed Nouman explained core principles such as process management, memory management, and file systems. His detailed explanations helped students gain a strong foundation in operating system concepts.

Afternoon Session:

After a lunch break, the session resumed from 1:45 PM to 4:30 PM with a hands-on approach. Students were introduced to Linux installation and configuration. They had the opportunity to work directly with the operating system, applying the concepts they had learned earlier in the day. This practical experience enhanced their understanding of how operating systems work in real-world settings.

Address by the HOD:

Dr. Shamna N. V., Head of the Department, highlighted the importance of such workshops in enhancing the learning experience. She emphasized the value of practical learning in academic development and encouraged students to actively participate in more events like this to build both technical and soft skills.

Event Coordination:

The workshop was efficiently coordinated by Prof. Afeefa Nazneen N. Z., with support from student coordinators Mr. Muhammed Zayan Sameer, Mr. Vineeth S N, Mr. Kameel M Ali, and Mr. Jishnu Jp, who managed the logistics and ensured the smooth running of the event. The Masters of Ceremony, Ms. Fathimath Huda and Ms. Nafisa Samah, facilitated the proceedings with great professionalism, keeping the audience engaged and the event on schedule.

Prize Distribution Ceremony:

Following the workshop, a prize distribution ceremony was held to recognize the winners of the Student Club Logo and Name Competition. The principal, Dr. Ramis M. K., presented awards to the winners. The team of Ameen Hasaine Saheb and Harshith R Shetty secured the first prize, while the second prize was awarded to Amna Fathima L and Rawana K M. The ceremony was further honored by the presence of IQAC coordinators, Dr. Zoheb and Mr. Vinil S. Babu, who congratulated the winners for their creativity and contributions to the club.

Conclusion:

The workshop was a great success, providing students with both theoretical insights and practical experience in operating systems, particularly Linux. The Department looks forward to organizing more events like this to continue fostering a culture of learning and growth among its students.
